CONTENTS VOLUME 17, 1990

Vol. 17 Nos. 1–3 January 1990

Special Issue

Preface ix
A review of the highlights and seminal issues of the symposium on the irrigation of sugarcane and associated crops - Mauritius
P. Tuley and C.H. Batchelor 1
Recent developments for improving water management in surface and overhead irrigation
M. Kay 7
Drag line irrigation: practical experiences with sugar cane
H. Zadrazil 25
A low head drip irrigation system for smallholdings
E. Miller 37
The reticulation of ethanol stillage through irrigation systems and its use for fertilisation of sugarcane in Zimbabwe
R.J. Booth and C.J. Lightfoot 49
Plant water relations and irrigation management
N.C. Turner 59
Importance of irrigation regime, dripline placement and row spacing in the drip irrigation of sugar cane
C.H. Batchelor, G.C. Soopramanien, J.P. Bell, R. Nayamuth and M.G. Hodnett 75
Plant-water relations of sugar-cane (*Saccharum officinarum* L.) under a range of irrigated treatments
J.M. Roberts, R.A. Nayamuth, C.H. Batchelor and G.C. Soopramanien 95
The tolerance of sugarcane to water stress during its main development phases
R.D. Ellis and B.A. Lankford 117
Irrigation research practice and development in Mauritius
G.C. Soopramanien, B. Berthelot and C.H. Batchelor 129
Tropicalisation of automatic weather stations and initial results for improved irrigation water management in Reunion Island
B. Genere 141
Experience with approximately 600 hectares of drip irrigation at Simunye Sugar Estate, Swaziland
J.G. Pollok, G.W. Geldard and C.P.M. Sweet 151
Soil physics and irrigation: tapping the potential for drip
P.J. Gregory 159
Soil Water Status: a concept for characterising soil water conditions beneath a drip irrigated row crop
J.P. Bell, S.R. Wellings, M.G. Hodnett and P.D. Ah Koon 171
The control of drip irrigation of sugarcane using "index" tensiometers: some comparisons with control by the water budget method
M.G. Hodnett, J.P. Bell, P.D. Ah Koon, G.C. Soopramanien and C.H. Batchelor 189
Use of pan evaporation for estimating the total dose and programming the irrigation of sugarcane
M. El Messaoudi 209
Irricane: a computer model for daily water stress of sugarcane plots
J.C. Combres and J.P. Jacquemoud-Collet 211

Irrigation recording to improve water management
S.A. Coulson 213
Resource use in intercropping systems
R.W. Willey 215
The relative importance of competition for water and for light in intercropping of sugarcane with maize
N. Govinden and J.T. Arnason 233
The partitioning of light and water in drip irrigated plant cane with a maize intercrop
J.S. Wallace, C.H. Batchelor, D.N. Dabeesing and G.C. Soopramanien 235
Response of selected legume companion crops to irrigation frequencies
U.R. Sangakkara 257
A computer model to simulate the water balance of an "andic" soil
M. Vaksman 265
Influence of drip irrigation emission rate on distribution and drainage of water beneath a sugar cane and a fallow plot
P.D. Ah Koon, P.J. Gregory and J.P. Bell 267
Economic and social perspectives on new irrigation technology
I. Carruthers 283
The organisation of Malawi's small holder sugar production under irrigation
A.W.J. Kisebe 295
Small holder irrigated cane in the Kano Plains of Kenya
S. Gitonga 301
A comparative study of the financial and economic viability of drip and overhead irrigation of sugarcane in Mauritius
P.B. Berthelot and C.A. Robertson 307
Impact of irrigation on sugarcane-based production systems
J.M. Chastel 317
The problems of running an efficient irrigation system on a small holder project
S.L. Njobvu 319
Optimal drip irrigation scheduling based on design uniformity, deficit application and crop response
I-Pai Wu 323
An assessment of drip irrigation of sugarcane on poorly structured soils in Swaziland
G.H. Dodsworth, D.J. Nixon and C.P.M. Sweet 325
Sugarcane consumptive use: experimental results in the case of Morocco
M. Bazza, A. Benmoumen, A. Madrane and M. Messaoudi 337

Vol. 17 No. 4 March 1990

Simulation model use for analyzing decision variables in multipump rice irrigation system operation
A.L.A. Galang and S.I. Bhuiyan (Manila, The Philippines) 339
Hydrological analysis of farm reservoirs in rainfed rice areas
L.C. Guerra, P.G. Watson and S.I. Bhuiyan (Manila, The Philippines) 351
Variable-time model for equitable irrigation water distribution
D.N. Sharma and R. Oad (Fort Collins, CO, U.S.A.) 367
Clay lining of leaking earth dams
R.G. Pepper and K.L. Burke (South Perth, W.A., Australia) 379
Mapping of irrigation need based on computerized soil and climatic data
H.B. Madsen (Copenhagen, Denmark) and K.Aa. Holst (Vejle, Denmark) 391

Short Communication

An irrigatio system for plots under a rain shelter
D.S. NeSmith (East Lansing, MI, U.S.A.), A. Miller (Royal Oak, MI, U.S.A.) and J.T. Ritchie (East Lansing, MI, U.S.A.) 409
